Louvred Panel for Glazing

- Lightweight grille manufactured from 1.6mm Aluminium Alloy 1050A to BS6063:T6
- Mill finish, PPC or anodised
- Coated in a range of Timber effect PPC
- Supplied in modular format with hairline mitred joints for fast and easy modular installation
- Provides excellent airflow
- Weather catch extruded into the blades and sill
- Integral Insect/Vermin Guard
- Supplied as an Open or Modular Panel

WPL's lightweight Louvre Grille is a great choice for air intake and extraction with its smooth curved extruded aluminium stacked blades, it will compliment any curtain walling system. Our flanged extruded aluminium perimeter frame has been designed as a 'one size fits all' when installed using our extruded clipping section which will allow our grille to fit into any curtain walling mullion depths.

Material: Aluminium
Free area (%): 50
Blade Pitch (mm): 38
Blade Angle (degrees): 55
Max Span: 1500
Profile: Z Blade
Size: Small
Depth (mm): To suit glazing mullion
