Offices, Cheadle Business Park

An exceptional new office building on the Cheadle Royal Business Park in Cheshire certainly stands out in the crowd. WPL installed its new louvred wall system, which is competitive, straighter, stronger, and faster to install. The system provides a panelled appearance or continuous flow and brings with it a look of quality unmatched by either ourselves or our competitors. The new system on top of the block is the one to watch.

Supply and installation of rooftop louvre screen with access door.
