

Avebury Boulevard, Milton Keynes

100 Avebury Boulevard is the name of this development chosen by the very successful Milton Keynes based development company AW James who chose WPL to lavish its exterior in aluminium rainscreen, aluminium mesh and aluminium vertical fins. It looked so good we were invited back to extend our product range to more of the facades. A tight program didn't get in the way of the official opening day, or the majority of the office space being let at the same time. All round success is a habit we embrace.

Aluminium Rainscreen Panels, Aluminium Decorative Mesh and Aluminium Vertical Fins
