Cathedral Quarter, Blackburn 2

At the 60-bed Premier Inn and the new six storey offices at Cathedral Quarter in Blackburn louvre panels and doors were incorporated to add an extremely striking feature on one building from ground level right up to the rooftop and functional louvres and doors at ground level on the other building.

WPL's 75mm pitch louvre systems with waterproof membrane and insulated panelling as well as Secure by Design doors to protect the low level plant control rooms as well as rooftop service areas.
